

GOUGH PLASTICS

# MEGATROUGHS

## Long MegaTrough

**In the paddock since 2005,  
from Cooktown to the Curry,  
from Charleville to Chinchilla!**

### Features and Benefits

- Pick up from town in your own ute or truck
- Lightweight to transport and install by yourself
- Unique water ballast system within the hollow cavity
- Ballast makes it ideal for permanent installations
- Easy to empty and relocate if required
- Heavy-duty ribbed design to handle being knocked around
- The grey colour helps keep the water cooler

Registered Design No. 319402

## Heavy-duty 1,000L Stock Water Trough

Built like a brick outhouse - only a lot easier to shift and easier to clean!  
Allowing 2ft per beast; approximately ten head will fit around this trough.

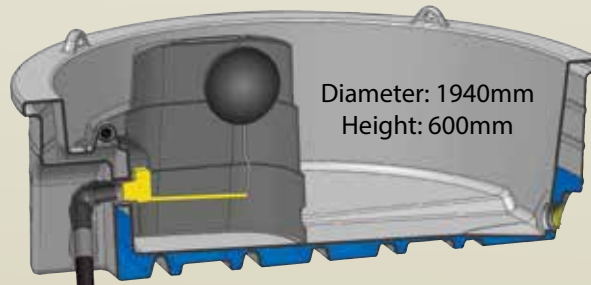

**\$1415.50\***  
FOR TROUGH, FLOAT COVER  
& CONNECTION KIT

Round MegaTrough		
Part Number	Description	Price*
FFAR800.7000.1	1,000L Round MegaTrough	\$908.16
FFAR800.8000	Round and 2.4m Float Cover	\$124.74
FFAR800.8001	Connection Kit	\$382.60

### Water Ballast System

- Water ballast makes the trough heavy once in place
- Cattle can't move the trough as if it were concrete
- Empty weight: 100kg
- Ballast weight: 300kg
- 400kg when full of water ballast

Long, short, wide or round, there's a Gough Plastics MegaTrough just right for your paddock!  
**Just ask our happy customers!**

"Living in the harsh dry climate of Western Queensland, we are always looking for durability. We've tried all manner of materials out in the paddocks. The hard abrasive bore water eats through steel, cement troughs get a cancer in them but the poly MegaTroughs seem to stand up. We've had some in place now for 4 years and to date they have been hardy and durable. They are user friendly to install and cleaning is a breeze. Highly recommend them in any size. The team at Gough Plastics are most helpful and obliging. 5 stars!"

**Melrose Station** Winton, QLD

"Strathmore Station changed over to the Gough Plastics 6 metre troughs about 7 years ago and have never looked back. Cattle have access to 1000 litres straight up and we have never had any damage either by stock or other situations. They are easy to move and no issues with leaks or cracks. Excellent product for the job!"
