Dimensions may vary by plus or minus 3% due to the rotational moulding process.

Our Vertical Slimline Tanks are available in two options for both water and diesel; 55L Wellbody Tanks and 65L Canopy Tanks.

- Stylish, slimline design
- Option of UV-stabilised food grade polyethylene or UV stabilised diesel grade polyethylene
- Site tube level gauge
- 40mm lockable filler cap
- Brackets available or strap-in option
- Gravity feed or pump option
- Hose Kits for water or diesel available

Our pump options are more convenient than carrying multiple jerry cans and they eliminate the heavy lifting.

Submersible Water Pump Option

- Low Pressure - High Flow (approx. 12L/min).
- Suitable for transferring water, filling buckets, washing up tubs, washing hands and dirty feet, rinsing mountain bikes, paddle boards, vehicle etc.

Submersible Diesel Pump Option

- High Flow (approx. 17L/min).
- Suitable for use as a long range fuel tank when heading into remote locations, towing vans and trailers to give you that extra fuel.
- Simply re-fuel your vehicle by inserting hose in the fuel filler. Only takes a few minutes to transfer.

Diaphragm Water Pump Option

- High Pressure (40psi) - Low Flow (approx. 3.8L/min).
- Suitable for camp showers, washing hands and dirty feet, filling water bottles and washing up tubs etc.
