

GOUGH PLASTICS DUMP-EZY

THE FIRST STOP FOR ALL PORTAPOTTIES!
SETTING THE STANDARD IN
USER-FRIENDLY DUMP POINTS.

The Dump-Ezy dump point is the entry point for all greywater portapotty and mobile toilet waste entering the waste treatment system. It is designed to be easily identifiable, attractive and user-friendly, with simple to follow instructions.

This easy to install, innovative product includes built-in simple and effective operational signage. The lid is lockable and strong yet light-weight and includes a moulded-in handle and a rubber seal.

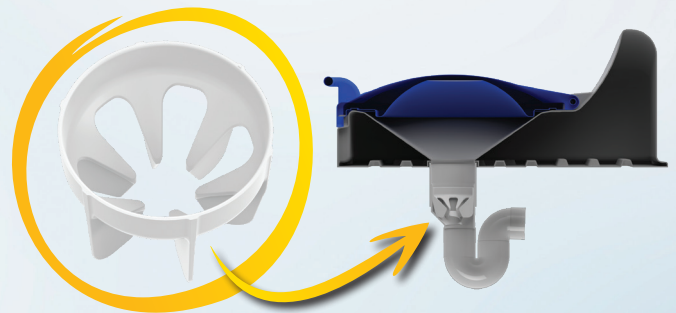

Dump-Ezy is manufactured from tough, UV-stabilised, non-corroding polyethylene. It can be installed on top of a floor or cast into a concrete slab. The unit allows for direct discharge to sewer and/or to a holding tank.

Adequate signage should be installed to make people visibly aware of the Dump-Ezy. Dump-Ezy signage is available from shop.gough.au.

Please note, the Dump-Ezy unit is not a treatment system. It is the front end of a process and needs to be installed in front of an appropriate holding tank, septic tank or sewer line.

Common applications include, but are not limited to:

- ✓ Council sites
- ✓ National parks
- ✓ Caravan parks
- ✓ Roadside stops
- ✓ Marinas
- ✓ Showgrounds
- ✓ Beach carparks

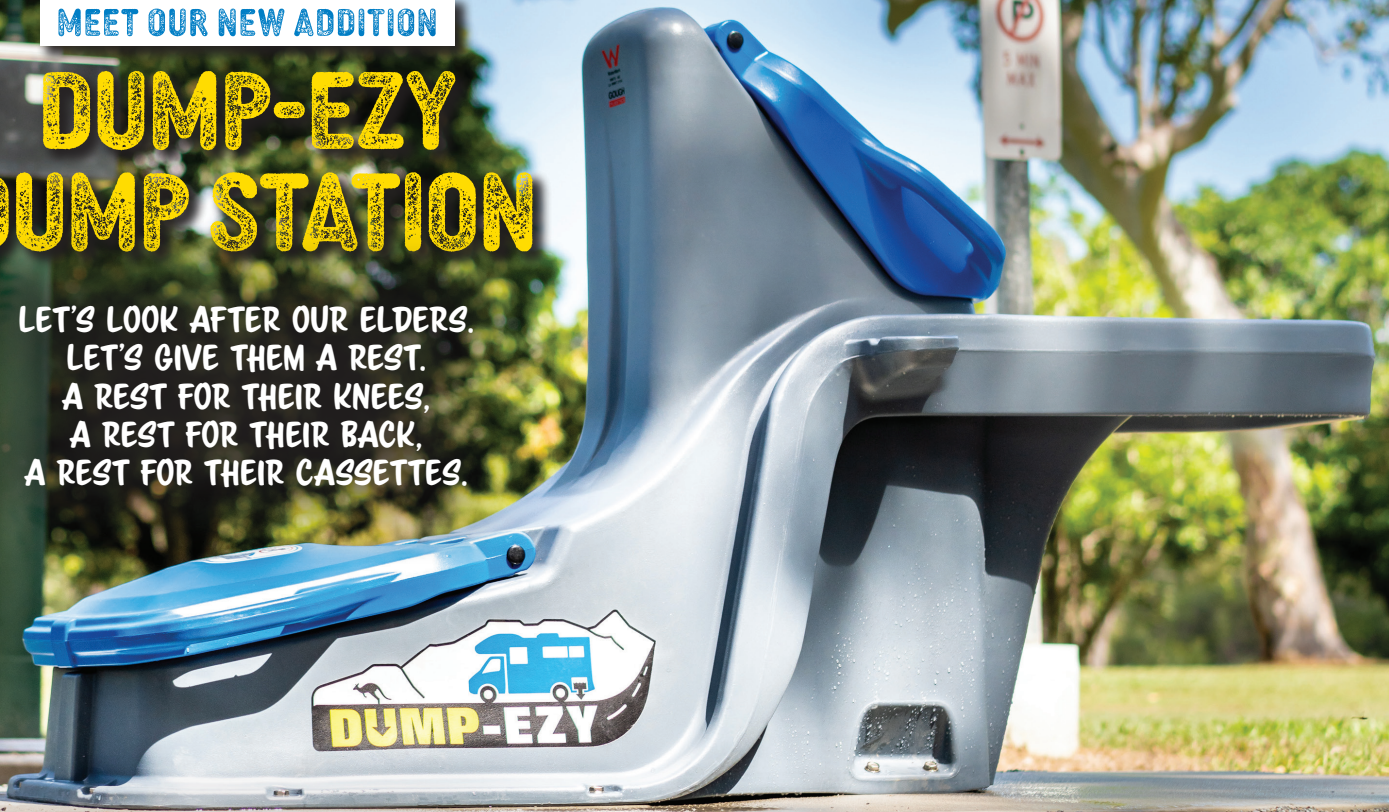

The Rubbish Blocka is easily installed and designed to prevent blockage by stopping unwanted items falling into the Dump-Ezy sewer pipe. It is available from shop.gough.au.

MEET OUR NEW ADDITION

DUMP-EZY DUMP STATION

LET'S LOOK AFTER OUR ELDERLS.
LET'S GIVE THEM A REST.
A REST FOR THEIR KNEES,
A REST FOR THEIR BACK,
A REST FOR THEIR CASSETTES.

Now joining our Dump-Ezy family, the new Dump Station provides an entry point for all greywater portapotty and mobile toilet waste entering the waste treatment system.

With all the benefits of the Dump-Ezy, this innovative product allows for direct discharge to sewer and/or a holding tank while offering a convenient and safe stand-up or crouch-down pouring option.

✓ Low pouring option for the large, heavy-weight cassette. The low entry is also suitable for discharge via a gravity hose which conveniently inserts into the unit.

- ✓ High funnel for a concealed pouring experience into a rubbish restricting entry point.
- ✓ Cap holder and pouring shelf at a convenient and ergonomic height to rest cassette, prepare for pouring and clean up.
- ✓ Steep-backed bowl to prevent splash back.
- ✓ Rubbish Blocka is included.

The Dump Station comes off-the-shelf, is easy to install and includes built-in, simple and effective operational signage.
